

PRODUCT DATA

AUTO SHINE

Liquid Car Wash and Wax

AUTO SHINE WASH AND WAX is formulated with a high concentration of selected detergents and rich polishes. Designed for easy, one-step car wash and wax applications. Produces copious amounts of gentle cleaning foam that rinses film free. Deposits a protective coating that covers the pores of the finish locking out dirt and grime. Cars washed with this product develop excellent gloss and water beading.

Designed for application with a brush, sponge or wash mitt. Excellent for use by car rental agencies, new and used car lots, municipalities, school bus garages, fire and police departments, bus and truck lines.

AUTO SHINE is safe for use on any automotive finish. It will not harm decals, pin-striping (tape or painted), and decorative lettering. **AUTO SHINE** is safe on metal, plastic and glass surfaces.

PRODUCT FEATURES:

- High foaming**..... provides clinging action aiding in the removal of difficult road soils.
- Concentrated**..... produces excellent car washing results even with extended dilutions.
- Streak free**..... outstanding rinsing action results in a clean car void of water marks or streaks.
- One-Step application**....saves labor, time, and money in any manual car washing application.

Refer to the Material Safety Data Sheet for safety information.
FOR INDUSTRIAL and INSTITUTIONAL USE ONLY.
