

PRODUCT DATA

CARE A VAN

**Super Concentrated Detergent Blend
For Use In Washing Trucks, Buses, Road Equipment, Etc.**

CARE A VAN is a super concentrated blend of detergents, emulsifiers and solvents. Formulated for the most effective removal of road soils, diesel stains, bug deposits, etc. Excellent for use on tractor-trailer rigs, buses, construction machinery and road building equipment.

Highly concentrated. May be diluted with up to 500 parts water. For the removal of heavy tar and grease **CARE A VAN** may be mixed 50/50 with kerosene.

PRESSURE WASHERS: Dilute 1 part with up to 500 parts of water. Pressure wash from the bottom up. Rinse from the top down.

FOAMING EQUIPMENT: Dilute concentrate 1 to 20 with water. Foam solution onto equipment to be cleaned, scrub with a stiff truck wash brush, then rinse from the top down.

TAR REMOVAL & COLD MOTOR DEGREASING: Mix 1 part **CARE A VAN** with 1 part kerosene. Apply to surface to be cleaned. Let set for approximately 10 minutes. Agitate with a stiff brush. Then rinse with water.

Refer to the Material Safety Data Sheet for safety information.
FOR INDUSTRIAL and INSTITUTIONAL USE ONLY.
