# DAZZLE

## Gym Finish

**SINGLE COMPONENT  
NO MESS  
NO POT LIFE  
SAVES TIME AND MONEY**

**DAZZLE** is a 31% self crosslinking, water based wood finish. **DAZZLE** was designed to be a performance offset to solvent and water borne urethane finishes. Made with a patented silanol-silane polymer, the crosslinking takes place while drying.

**DAZZLE** offers a brilliance and durability that is equal to or greater than oil modified products.

**DAZZLE** has a fast drying time of one hour and a 24 hour turn around time, which means less down time.

**DAZZLE** provides excellent coverage of approx. 250 sq.ft. per litre.

**Follow label directions for best results.**

Read the Material Safety Data Sheet before handling this product.  
**FOR INDUSTRIAL and INSTITUTIONAL USE ONLY.**
