

STAINLESS

Stainless Steel Polish

STAINLESS cleans, polishes and protects stainless steel surfaces with a minimum of effort.

It removes fingerprints, dirt grease and water stains to restore and preserve the original lustre.

STAINLESS may be used on all types of non porous lustrous surfaces like stainless steel surfaces in restaurants, food plants, elevators, water fountains, etc.

DIRECTIONS: Apply directly onto surface to be cleaned or onto a clean damp cloth. Wipe surface with cloth, removing any excess cleaner and buff with a dry cloth.

**Read the Material Safety Data Sheet before handling this product.
FOR INDUSTRIAL and INSTITUTIONAL USE ONLY.**
