

# ***Turbo Matic***

**The Automatic Solution  
to daily cleaning and restoration for  
Auto Scrubbers,  
in one easy step !**

**Saves time and labour  
Deep cleans**

***Turbo Matic*** is our answer to today's need for a time saving restoration product. Today, operators are forced to clean and then spray buff or restore the floor. In the case of large areas such as shopping malls and supermarkets, this can be an extremely expensive proposition, as ninety five cents out of every dollar is spent on labour.

***Turbo Matic*** is based on new technology, that allows a blend of deep cleaning solvents and micro emulsions, to allow for a truly revolutionary product.

Floors maintained with ***Turbo Matic***, may be spray buffed or high speed burnished.

***Turbo Matic***, repairs scuffing, scratching, etc., while leaving a micro layer, that burnishes to a brilliant clear gloss.

***Turbo Matic*** is economical. Use only 1 part with 80 parts of water for daily maintenance.

**Typical Properties:**

Non volatile solids	10% minimum (ASTM D2834)
Slip Resistance	>0.50 COF (ASTM D2047)
pH	10.0-11.5
